The Society of Cardiovascular Anesthesiologists designates this educational activity for a maximum of 20 credits in category 1 credit towards the AMA Physician's Recognition Award. Each physician should claim only those credits that he/she actually spent in the educational activity.

Dear Sir/Madam:

It is my pleasure to announce that the 9th International Congress of Cardiothoracic and Vascular Anesthesia, co-sponsored by the Society of Cardiovascular Anesthesiologists, and in conjunction with the 9th Annual Meeting of the Japanese Society of Cardiovascular Anesthesiologists, will be held from September 9 through September 12, 2004 in Tokyo, Japan. I am honored to be president of this congress.

Hotel Nikko Tokyo, the venue for the meeting, is located just southeast of the center of Tokyo; it can be easily reached by train in half an hour from Tokyo Station and seventy minutes from Narita Airport. You can enjoy a beautiful night view of the Tokyo Bay area through the hotel windows, while Tokyo Disneyland and Disney Sea are just near the hotel.

The main theme is **Education and Safety of Cardiac Anesthesia: A World Prospective of Risk Reduction**. Patient safety is the most important issue for anesthesiologists, and education should seek to reduce the risk during anesthesia. The meeting will have 14 panels on new findings and technologies, original research poster discussions, four TEE workshops and one cardiopulmonary bypass workshop. Additionally, there will be two special abstract sessions. Ten selected abstracts will be presented orally, and in honor of one of Japan's visionary anesthesiologists, the Fujita Award will be presented to the two best researchers. We are also planning a TEE examination, JB-POT (Japanese Board of Perioperative Transesophageal Echocardiography), on September 12, 2004. The test will be given in English and Japanese.

Lastly, we would be grateful for your kind understanding of the significance of this congress, as well as any support that would be most welcomed to make it a success.

Thank you in advance for your help and consideration. I wish each and every one of you continued success.

Best regards,

A handwritten signature in black ink that reads "Junzo Takeda". The signature is written in a cursive, flowing style.

Cardiopulmonary Bypass (CPB) Workshop (English/Japanese)

Safe CPB depends on effective communication and close coordination of activities by everyone on the OR team, and hence anesthesiologists bear the responsibility of understanding the basic principles of CPB. The CPB workshop is intended to assist anesthesiologists in understanding the CPB components and their functions through actual operation of CPB mock circuits.

Japanese Board of Perioperative Transesophageal Echocardiography (JB-POT)

In the U.S., TEE Workshops and the certifying examination are being held to deepen the specialty. The National Board of Echocardiography (NBE) is well-organized and contributing to TEE's dissemination. The Examination of Special Competence in Perioperative Transesophageal Echocardiography (PTEeXAM), taken mainly by cardiovascular anesthesiologists in North American countries, is recently spreading among cardiovascular anesthesiologists in European nations and Asian countries as well.

In Japan, TEE has become widely used and has gained acceptance as a useful diagnostic and monitoring tool for many patients under various conditions. In the operating room, anesthesiologists need the knowledge and skill of TEE to determine the cause of hemodynamic disorders. Cardiovascular surgeons have also asked that anesthesiologists have the knowledge and skill of TEE to confirm the adequacy of surgical repairs. The Japanese Society of Cardiovascular Anesthesiologists (JSCVA), in association with the NBE, will be introducing and organizing the TEE certifying examination called JB-POT (Japanese Board of Perioperative Transesophageal Echocardiography).

The first examination will be held on September 12, 2004, the final day of the 9th International Congress of Cardiothoracic and Vascular Anesthesia, in English and Japanese. JSCVA will hold a TEE workshop (in English) on September 11, 2004, to authorize successful JB-POT candidates.

JB-POT Basic Information

Foreword

JB-POT has prepared the content outline for a certifying examination to test the required knowledge of a useful perioperative TEE application. This outline consists of broad information involving anatomy, physiology, pathophysiology, and acoustic technology. The final goal is to cultivate specialized cardiovascular diagnosticians especially in the field of perioperative TEE.

The examination, which consists of video and multiple-choice questions, is to be given annually in cooperation with the NBE.

JSCVA, as well as JB-POT, will authorize competent candidates, and expects those certified specialists to enhance the quality of perioperative TEE by making the effort to optimize their skill in the performance and interpretation of cardiac ultrasound, and furthermore to take a core position in the operation of TEE.

Purpose

JB-POT was established to enhance the quality of perioperative transesophageal echocardiography, to encourage individual professional growth in perioperative transesophageal echocardiography, and to coordinate social activity in the practice of perioperative transesophageal echocardiography.

To accomplish this purpose, JB-POT shall

- ✧ Assess the level of knowledge in the practice of perioperative transesophageal echocardiography and serve as a source for distribution of information concerning certifying examination in perioperative transesophageal echocardiography
- ✧ Give a certifying examination annually
- ✧ Organize TEE seminars
- ✧ Serve as a source for distribution of information concerning TEE
- ✧ Communicate with other oversea societies (e.g., National Board of Echocardiography)
- ✧ Coordinate social activities in perioperative transesophageal echocardiography

The First JB-POT Certifying Examination

Examination date: Sunday, September 12, 2004

Time: Starts at 9:00 am (about for 3 or 4 hours)

Location: Hotel Nikko Tokyo, Daiba, Tokyo

Requirements for 2004 JB-POT exam candidates:

Attend TEE workshops (seminars) co-sponsored by the Japanese Society of Cardiovascular Anesthesiologists (JSCVA) (see Form A for application for TEE workshop.)

10 points credited by JSCVA are needed (2-hour lecture = 5 credits).

(A copy of the attendance verification cards must accompany the application.)

TEE workshops (seminars) prior to September 12, 2004 will be available and attendance verification cards will be checked at the examination desk on the examination date.

Language: English or Japanese, as indicated on your application form (Form C)

Application fee: 25,000 yen

*Discount for attendants of 9th International Congress of Cardiothoracic and Vascular Anesthesia (15,000 yen)

Certification fee: 5,000 yen

*Successful candidate has to pay the certification fee. The details are to be provided by the secretariat.

How to apply:

1. Pay the examination fee using Form A (registration form) or on-line registration page.
2. Fill out the application form (Form C).
3. Send the fully completed form with the documentations (a, b, c) explained below by mail, UPS or FedEx to:

The Secretariat of the Japanese Society of Cardiovascular Anesthesiologists
 Department of Anesthesiology, Tokyo Women's Medical University, School of Medicine
 8-1 Kawadacho, Shinjuku-ku, Tokyo 162-8666, Japan

Enclosure:

- (a) A copy of attendance verification card if you have one.
- (b) Picture (size: 3 x 4cm, taken within last three months; write your name and affiliation on the back of the picture)

CME ACCREDITATION

The Society of Cardiovascular Anesthesiologists is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education to physicians.

The Society of Cardiovascular Anesthesiologists designates this educational activity for a maximum of 20 credits in category 1 credit towards the AMA Physician's Recognition Award. Each physician should claim only those credits that he/she actually spent in the educational activity.

OFFICIAL LANGUAGE

The official language of the congress is English (simultaneous interpretation between English and Japanese will be provided in certain sessions).

OFFICIAL LETTER OF INVITATION

Official letter of invitation to help overcome administrative difficulties in some countries can be sent by the organizing committee upon written request to the secretariat. This should not, however, be construed as a financial commitment on the part of the organizers.

BREAKFAST AND LUNCH

The organizing committee will provide continental breakfasts. Lunches will be provided at lunch sessions. Information about the lunch sessions seminars will be provided on the congress web site. As there will be a limited number of meals, they will be served on a first-come, first-served basis.

PASSPORT AND VISA

To visit Japan, you must have a valid passport. A visa is required for citizens of countries that do not have visa-exempt agreements with Japan. Please contact the nearest Japanese embassy or consulate for visa requirements.

DUTY FREE IMPORT

Personal effects and professional equipment can be brought into Japan duty free as long as their contents and quantities are deemed reasonable by the customs officer. You can also bring in 400 cigarettes, 500 grams of tobacco or 100 cigars, 3 bottles of alcoholic beverages, 2 ounces of perfume, and gifts and souvenirs whose total market price is less than 200,000 yen or its equivalent. There is no allowance for tobacco or alcoholic beverages for persons aged 19 years or younger. Strictly prohibited are firearms and other types of weapons and narcotics.

INSURANCE

The organizer cannot accept responsibility for accidents that might occur. Delegates are encouraged to purchase travel insurance before leaving their home country. Insurance plans typically cover accidental loss of belongings, medical costs in case of injury or illness, and other possible risks of international travel.

CLIMATE

The temperature in Tokyo during the period of the congress ranges between 21 and 30 degrees Celsius.

CURRENCY EXCHANGE

Only Japanese yen (¥) is acceptable at regular stores and restaurants. Certain foreign currencies may be accepted at a limited number of hotels, restaurants and souvenir shops. You can buy yen at foreign exchange banks and other authorized money exchangers on presentation of your passport.

TRAVELER'S CHECKS AND CREDIT CARDS

Traveler's checks are accepted only by leading banks and major hotels in principal cities, and the use of traveler's checks in Japan is not as popular as in some other countries. Visa, MasterCard, Diners Club and American Express are widely accepted at hotels, department stores, shops, restaurants and nightclubs.

TIPPING

In Japan, tips are not necessary anywhere, even at hotels and restaurants.

ELECTRICITY

Electric current is uniformly 100 volts, AC, throughout Japan, but with two different cycles: 50 in eastern Japan including Tokyo, and 60 in western Japan including Kyoto and Osaka. Leading hotels in major cities have two outlets of 100 and 220 volts but their sockets usually accept a two-prong plug only.

SHOPPING

Shops and other sales outlets in Japan are generally open on Saturdays, Sundays and national holidays as well as weekdays from 10:00 to 20:00. Department stores, however, are closed on one weekday, differing by store, and certain specialty shops may not open on Sundays and national holidays.

Participants wishing to make scientific contributions are invited to submit abstracts for poster presentation by April 30, 2004 via the congress web site:

<http://www.jscva.org/iccva2004/>

3. Abstracts sent by fax or e-mail will not be accepted.
4. In case of genuine difficulties, please contact the congress secretariat:
iccva_abst@convention.co.jp
5. Accepted abstracts will be published and distributed at the congress.

Abstract Review and Selection:

1. Abstracts will be reviewed and selected by the scientific program committee.
2. Confirmation of acceptance or rejection by the scientific program committee will be e-mailed to the corresponding e-mail address of the presenting author.

Awards:

Oral presentations will be made by selected abstracts at the congress, with the organizing committee presenting two awards to the best papers.

1. Fujita Award (for Japanese researcher)

Five selected abstracts will be presented orally, and in honor of one of Japan's visionary anesthesiologists, the Fujita Award will be presented to the best paper.

- Objective: This award is targeted at general or specific clinical studies directly connected to clinical medicine, and will be determined on the basis of abstracts submitted by Japanese researchers.
- Five abstracts will be selected through a preliminary rated review by committee members (comprising the president, secretary general and Japanese scientific program committee).
- For these five selected abstracts, oral presentations will be made by the first authors (researchers) at the congress, with the best abstract chosen by judges appointed for this selection process by the Japanese Society of Cardiovascular Anesthesiologists.
- The winner will be announced at the banquet on September 10. A supplementary award of 200,000 yen will be presented in appreciation of participation by the Japanese Society of Cardiovascular Anesthesiologists.

2. President's Award (for overseas researcher)

- The President's Award was established for the 9th International Congress of Cardiothoracic and Vascular Anesthesia for the best paper from overseas researchers.
- Objective: This award is targeted at overseas researchers for general or specific clinical studies directly connected to clinical medicine, and will be determined on the basis of submitted abstracts.
- Five abstracts will be selected through a preliminary rated review by committee members (comprising of the president, secretary general and Japanese scientific program committee).
- For these five selected abstracts, presentations are to be made by the first authors (researchers) at the congress, with the best abstract chosen by judges appointed for this selection process by the 9th International Congress of Cardiothoracic and Vascular Anesthesia.
- The award winner will be announced at the banquet. A supplementary award of US\$2,000 will be presented as well.

Presentation Style:

1. Oral presentations

The oral presentations (invited presentations and awards) are to be made by PC only.

2. Poster presentations

- Posters should be brought to the congress and not mailed, as the organizing committee cannot be responsible for loss or mishandling.
- Presenters are responsible for posting and removing their own material.
- Audio-visual equipment may not be used.
